

COMPASS Update

New Patient Summary Tab

Throughout the week of November 30th, a new tab will be added to COMPASS. The **Patient Summary** tab offers a quick view of high-level patient data. Initially created to improve physician workflow, all users should find the tab useful.

Things to Know:

1. Click on any underlined header to be taken to that tab in COMPASS.
2. **Diagnosis/Problem List:** Color coding is Green = Diagnosis, White = Problem, Red = Alert.
3. **Diagnostics:** Most recent pathology and radiology reports.
4. **Clinical Documentation:** Find Consultation Notes, History and Physical Reports, Operative Reports, etc.
5. **Lab:** Posts the two most recent results and trends the data. (Please note the numerical values appear with the latest result on the left and the previous result on the right. The graph trends with the *previous* result on the left and the *latest* result on the right.)

Remember: Menus vary by position, so your menu may not look exactly like this example
