Expand (+) Collapse (-)

Add an Order

From the patient's chart, click the **Add Order** icon.

1. Search for the medication or order by typing the first letters of its name in the **Find** field. (Search by either "**Starts with**" or "**Contains**".)
2. Click on the name of your desired medication from those displayed.
3. Review and complete any order details.
4. Click the **Sign** button in the lower right corner
5. Click the **Refresh** button in the upper right corner

Weight Based Dosing Calculator

1. From the patient's chart, click the **Add Order** icon.
2. Click +Add
3. Search for and select medication.
4. Click the **Dose Calculator icon** to display the calculator.
5. Type the target dose in target dose field and select from drop-down menu.

Dose Values:

1) Target dose:

2) Calculated dose:

3) Reduced dose: %

4) Final dose:

5) Standard dose:

Rounding rule:

6. To apply calculated final dose to order, click **Apply Dose**.

Power Plans

A **PowerPlan** is a diagnosis driven collection of pre-built orders that allow clinicians to plan and coordinate patients care by bundling orders together. Power Plans can be designed ahead of time and initiated when a patient is admitted. Additional orders can also be added to the plan when ordered or after it has been initiated.

Order a Power Plan

1. Click the **Orders** link.
2. Click the **Add** icon.
3. Type the first few characters of the plan name in the search field and click **Search**.
4. Click once on the plan name with the Power Plan icon in front of it.
5. Click **Done**.
6. Check or uncheck the orders to include/exclude.
7. Click **Initiate**.
8. Click **Sign** and then click the **Refresh** button.

Add an Order to a PowerPlan

1. Display the PowerPlan on the Orders screen by clicking it in the View column.

2. Click **Add to Phase** icon and the Add Order window opens.
3. Enter the order in the Search field
4. Highlight the correct order and click **Done**. The Add Order window closes.
5. The Order is now located on the orders pane, enter the order details.
6. Click Sign and then click the Refresh button.

Discontinue a Power Plan

1. **Right-click** the plan in the View Column.

2. Select **Discontinue** from the drop-down.
3. Choose a discontinue reason from the menu.
4. Click the box next to each order you wish to continue.
6. Sign and refresh the order.

CareSets

A **CareSet** is a smaller prebuilt collection of orders that contains a number of individual orders used primarily for a specific purpose such as a test.

Care sets in the Add Order window are marked by the care set icon.

Individual orders within a care set can be edited and modified like any other order.

Careset - Vital Signs Sequential		
Component	Order Details	
<input checked="" type="checkbox"/> Vital Signs	Start Date T.N.	q15min for 1 hr
<input checked="" type="checkbox"/> Vital Signs	Start Date T.N+60.	q30min for 2 hr
<input checked="" type="checkbox"/> Vital Signs	Start Date T.N+180.	q1hr for 4 hr
<input checked="" type="checkbox"/> Vital Signs	Start Date T.N+420.	q4h for 16 hr
