

## Lexi-Comp is here!

New online comprehensive drug reference is now available

**Physicians:** Access concise, clinically-relevant drug information quickly.

**Nurses:** Find helpful guidelines to drug therapy questions and IV related issues. Print Patient education in 18 languages.

**Pharmacists:** Use 3 deepening levels of data, with in-depth content from AHFS Drug Information® and AHFS DI Essentials™ databases.

Lexi-Comp searches 15+ databases, including the Seton Family of Hospitals Formulary, for information:

- **Interactions**—A predictive drug and herbal interaction analysis, including a summary of all interactions with an assigned risk rating
- **Drug Identification**—Quick ID based on Imprint, Dosage Form, Shape, Color
- **Calculations**—Includes over 50 medical calculations to assist with dosing, drip rates and organ function assessment
- **IV Compatibility**—Combines content from the King Guide to Parenteral Admixtures®, the most complete injectable drug reference with over 400 fully-referenced parenteral drug monographs
- **Web Search**—Complements Lexi-Comp by expanding search capabilities to other medically-based web sites and literature.
- **Patient Education**—Available in 18 languages and organized in a straightforward and concise format ideal for patient counseling.

### Accessing Lexi-Comp

1. Type **COMPASS** in the Intranet address line of any Seton computer.
2. Click on the Lexi-Comp icon.

### Lexi-Comp Resources
