

# ▶ MediSource Overview

## WHAT IS MEDISOURCE?

It's quick, safe, convenient and practical. It's MediSource -- the new pharmaceutical desktop reference accessible through COMPASS.

MediSource is a convenient and practical way for Seton healthcare professionals to learn about a medication's action, dosage range, potential allergies and contraindications – allowing you to quickly, safely and confidently administer medications to your patients.

Access MediSource through the COMPASS application screen you use to access PowerChart. The MediSource icon will appear as . No username or password is required. To learn to use this tool most efficiently, a thirty-minute COMPASS MediSource Overview is available on Seton Learning Central (course code: COMP-SP105).
