

## ICD-10 Training Available

ICD-10 became the required national standard on October 1, 2015. If you have not trained for ICD-10, or would like to refresh your training, Seton will provide access to convenient online training modules at no cost. It is highly recommended that you take advantage of this training opportunity.

Accurate and complete clinical documentation is key since it is the basis for the coding used for billing, clinical data collection and analysis. These online training modules will teach you fundamentals that will allow you to provide optimal documentation, which in turn, will allow for optimal coding and accurate healthcare data.

Practicing Seton medical staff physician leaders selected HealthStream Precyse online modules as the best training resource for physicians to learn ICD-10 documentation procedures. These online training modules are convenient for physicians to access on their own time, from anywhere.

### **To Access the Training Modules:**

If you are interested in utilizing the ICD-10 training modules, please email [ICD-10-Team@seton.org](mailto:ICD-10-Team@seton.org) with your name, specialty and preferred email address. Once this information is received, you will be granted access to the modules and the ICD-10 Team will send you login instructions.

### **If You Have Access to the HealthStream Precyse Website, To Review Past Training Materials:**

1. Go to: <http://www.healthstream.com/hlc/ascension>
2. Both your User ID and Password are your email address, all lower case.  
User ID = [johndoe@gmail.com](mailto:johndoe@gmail.com)  
Password = [johndoe@gmail.com](mailto:johndoe@gmail.com)

### **Courses Available and CME Credit:**

The ICD-10 Team will preload courses for you. You will be given access to core courses that offer foundational knowledge of ICD-10, as well as specialty-specific courses.

In addition to gaining proficiency in ICD-10 documentation, you can also earn CME credits by completing the courses. The three modules offering CME credit include:

- The Language of ICD-10: Specificity and Granularity: 0.5 CME
- Documenting in ICD-10-CM: 0.5 CME
- Documenting in ICD-10-PCS: 0.5 CME

### **Questions/More Information:**

We hope you take advantage of this training opportunity, if you have any questions or need more information, please email [ICD-10-Team@seton.org](mailto:ICD-10-Team@seton.org).
